

Anyone can generate content. Somebody has to answer for it.

I was trained to check sources before I was trained to write. That order has never reversed.

Web and PR copy, bids, case studies, UX microcopy, and board speeches: for regulated industries, I turn dense technical detail into clear English. Every claim checked to source, missing facts flagged, never invented.

From Malta, I run four retained accounts through Switch Ltd, and the AI labs now buy the same judgement through micro1, which has engaged me to review robotics training data.

4	RETAINED ACCOUNTS: UK, US, AND MALTA
6	ORGANISATIONS TRAINED IN C-LEVEL ENGLISH
3 → 12	EDITORIAL DESK BUILT
7 → 5	SETUP STEPS, A/B-TESTED AND IMPLEMENTED
1	US PATENT APPLICATION DRAFTED AND PUBLISHED

EXPERIENCE

Consultant, **Switch Ltd**

JAN 2026 – PRESENT • MALTA

- Run four retained accounts: BAMUK Group in the UK, Kalon Software in the US, Alter Domus in Malta, and a manufacturing group, across web content, press, and internal communications.
- Write speeches and C-level material for Alter Domus Malta, and change-management campaigns for the manufacturing group.
- Apply brand archetypes to fintech, SaaS, and manufacturing messaging, replacing jargon with verified facts and human stories.

Content Producer, **micro1**

JUL 2026 – PRESENT • REMOTE

- Freelance member of the expert network of micro1, a supplier of human-generated data to frontier AI labs, in parallel with agency and direct client accounts.
- Engaged as Video Annotation Specialist on a robotics pipeline: robotic-arm video reviewed against customer grading guidelines, action and event tagging, peer review of annotations, and written observations.

Consultant, **Three Lions English GbR**

2015 – PRESENT • MALTA & GERMANY

- Run an English consultancy in three lines (company training, legal translation, and web content), with brand constraints enforced by systematic verification.
- Coach boards and senior teams at Assemblin Caverion Group, Krüger, Metsä, Nickel, NRW Invest, and OBI in C-level Business English, and write their speeches.
- Build CEFR-aligned interactive quizzes and grammar videos in NotebookLM and Claude.

Copywriter, **BRITA SE**

FEB 2021 – FEB 2023 • KOBLENZ

- Produced B2B and B2C copy for a global water-filtration brand in a standards-bound industry, across web, press, trade, and print.
- Wrote the master web content that kept messaging consistent across channels and markets, and ran the company tonality briefings.

SELECTED HISTORY

Mobile UI Copywriter, **Vodafone**

DÜSSELDORF

- Wrote the UX microcopy for the mobile portal, used by millions, and a Plain English word list tuned to read fast in very tight screen space.

Web Editor and Copywriter, CM-AG

COLOGNE

- Cut a CMS setup wizard from seven steps to five. The new flow tested higher in A/B and was implemented.
- Wrote web and print content, and drafted the US patent application for homepageNOW, an online shop that publishes ready-made websites, published as US 2008/0046327 A1.

Managing Editor, 1&1 Internet (now IONOS)

BERKSHIRE

- Brought content production in-house and cut the recurring agency spend.
- Ran all UK SEO content, and led editorial strategy for the US launch.

Chief Editor, SoccerAge.com (later Goal.com)

NEW YORK & MILAN

- Grew the editorial desk from three to twelve.
- Negotiated governing-body press accreditation for the team in place of fee rises, so editorial spend held flat.

Humyo

LATER ACQUIRED BY TREND MICRO

- Sole author of all launch content, B2C and then the B2B partner channel.
- Created the Goldfinger vault concept for servers housed in a former Bank of England vault.

Troubleshooting consultant, Pipex UK

- Consulted on the revised VPS launch. Sales rose by more than forty per cent.

Voice and translation

- Voiceovers for Vodafone and The Club of Rome, and German-to-English translation and voiceovers for Africa GreenTec and the Birkelbach Media Group.

WHAT I AM HIRED FOR

AI EDITING AND GOVERNANCE

- Audits of existing content libraries, scored for machine-generated tells and search exposure, with the rebuild priced in writing.
- Detection and rewrite of machine-generated copy against codified, testable house standards, so content stays distinct and worth reading.
- Retrieval-augmented generation: NotebookLM indexed on client material, so every task cites back to source.
- Search visibility in three places: Google ranking (SEO), AI answer boxes (AEO), and citation inside generative engines (GEO).

WRITING AND EDITING

- Source-checked B2B writing, with claims checked against client documents and house style held on every agency account.
- UX and UI microcopy, bids, case studies, and board speeches.
- Tone of voice set by brand archetype. A/B testing and performance reviews.

LOCAL AND PRIVATE AI

- Open models run on site, Ollama with Gemma and Qwen, so client data and IP never leave the building. Built for confidentiality and GDPR.
- One fact base, verified once against source, then reused in every content type.

PLATFORMS, CLIENTS, AND SECTORS

PLATFORMS	WordPress · HubSpot · Drupal · NotebookLM · Ollama
CLIENTS	BRITA / Vodafone / Alter Domus / Assemblin Caverion Group / Furnitubes / Krüger / Metsä / Nickel / NRW Invest / OBI / Trend Micro / Pipex UK / Birkelbach Media Group
SECTORS	Fintech / SaaS / Manufacturing / Telecoms / Hosting and cloud / Water filtration / Legal / Building technology / AI training data

EDUCATION AND STATUS

University of Birmingham, BA (Hons) Medieval and Modern History. UK citizen, with German and Maltese residencies. English native, German C1, French B1.
